1. This is a formal agreement between the “Contributor” and the “DFKI”. The “Contributor” is a person contributing “Contributions” to the pySPACE framework. “Contributions” can be code, graphics, translations, all sort of documentation – anything that is distributed as part of or with the pySPACE framework or published by the DFKI (typically on its website) with reference to pySPACE. The “DFKI” is **Deutsches Forschungszentrum für Künstliche Intelligenz GmbH** (German Research Center for Artificial Intelligence, a company with limited liability under German law) and any possible successor of that company. The DFKI determines who is to be considered a successor.
2. The Contributor hereby grants the DFKI the ability to use the Contributions in any way. The Contributor grants to the DFKI a non-exclusive, irrevocable, worldwide, royalty-free, sublicenseable, transferable license under all of the Contributors relevant intellectual property rights (including copyright, patent, and any other rights), to use, copy, prepare derivative works of, distribute and publicly perform and display the Contributions on any licensing terms, including without limitation: open source licenses and binary, proprietary, or commercial licenses. After signature the Contributor cannot withdraw from this agreement.
3. The Contributor is legally entitled to grant the above license. The Contributor ensures that the Contributions are the Contributors original works of authorship, and to the Contributors knowledge, no other person claims, or has the right to claim, any right in any invention or patent related to the Contributions. The Contributor agrees not to provide any Contribution that violates any law or breaches any contract.
4. The DFKI determines the code and other Contributions that go into its products. The Contributor understands that the decision to include the Contribution in any product or source repository is entirely that of the DFKI and this agreement does not guarantee that the Contributions will be included in any product for any specific period of time.
